

TEACHERS TO GIVE HANDS TO KENDALL

Superintendents of Education of City and County Are to Assist.

COURSES FOR 1917

Summer Normal Training Included in Big, Broad, New Plan.

It is clearly seen from all the announcements of public that Henry Kendall college begins work this fall upon the basis of "get in line with modern educational movements and present-day demands or get out."

While it will maintain and strengthen its splendid old-time values as a church-school by enriching the department of the bible and religious education, both in extra courses and an additional faculty member, still Kendall will enter new and broad fields in 1917 never approached before.

Like Normal Courses

When President Evans made it clear that a school of education would be set up at the college this year, with an experienced educational expert at its head, and that work precisely like that of state normal schools and the college of education at the university would be offered, Tulsa city and county teachers were delighted.

Superintendent Maxwell of the county schools at once pledged that the Tulsa county institute for teachers would be held at the college in the summer of 1917. All the conditions for county superintendent have so far expressed themselves as heartily in favor of building up in Tulsa county a great teacher college by holding summer sessions here.

City to Assist

Superintendent Oberholzer of the city schools has pledged his untold efforts to assist the city teachers toward correspondence and extension work which will be given by Kendall college and which will afford the city teachers and those in adjacent territory rare opportunity of completing a full college course and taking a degree.

All high school graduates of city and county and eastern Oklahoma who desire to teach should not forget that the board of education of Oklahoma has given Kendall the same power of granting two-year state certificates and life diplomas given all state schools.

APPLY FOR \$700,000 SCHOOL LAND LOANS

Was Largest Amount of Loans During Any Month Since Creation of Department.

Special to The World

OKLAHOMA CITY, July 3.—Applications for loans aggregating \$700,000 were presented to the school land department during the month of June, according to figures compiled today by Secretary George A. Smith. This is the largest amount of loans applied for during any one month since the creation of the department.

Money now is being loaned by the department from the farm loan fund at the rate of about \$100,000 monthly. There now is on hand in the fund between \$200,000 and \$300,000 more than there are applications on hand for. There are indications at present that the applications for July will greatly exceed those of June.

tion where his ability was recognized in the regular. He is a native of Toledo, Ohio, is a man of education and a soldier of wide experience. He will prove valuable to Company C.

Major A. C. Evans of California arrived in camp this afternoon and wants to get back into Oklahoma territory, though he was tendered a California commission. He used to be a valuable man in the engineers corps, and is one of the expert riflemen of the United States. He traveled from California to get back home, and he will probably be detailed for machine gun work.

Sunday was a real fast day for the Tulsa company. Some admitting friends from Oklahoma City sent fifty spring chickens to the company, and there was fried chicken, cream gravy, peach cobbler and many other things not readily found in camp.

Tonight the business men of Lawton will entertain the officers and prize representatives at a smoker at Medicine park. It will be an informal affair but will be largely attended. The people of Lawton will give a dance tomorrow on the asphalt pavement, the proceeds to go to buy refreshments for Lawton's enlisted men.

Want Men Badly

Colonel Hoffman has agreed to many prominent men tonight in various portions of the state, asking that tomorrow's celebration be utilized in securing recruits for really patriotic purposes. We need seven hundred men badly, and must get them in a hurry.

All recipients of Colonel Hoffman's telegrams are directed to wire recruits tomorrow night. Carl Morris will get one of these telegrams at the ingrate in Dewey. Morris is an odd gentleman, having been a teamster and in the Spanish-American war.

It is desired that all newspapers state that any recruit can get transportation by pleading to his adjutant. General Evans of Oklahoma City.

Most of Company C was examined this afternoon. There were but few rejections, the company is in excellent shape. Captain Miles passed with "B" in every respect.

shops and other places of business and thousands will gather at the municipal parks and take part in the celebration which will be the greatest in the history of the municipality.

Monument Celebration.

At seven park minute details of arrangements have been completed for

the mammoth celebration which is to take place here and for which accommodations have been made to handle a crowd estimated at ten thousand persons.

With the closing of the shops, stores, offices and banks of the city the motion picture houses, restaurants, parlors and other places of recreation have made plans for providing for great crowds. The shows of the city have in almost all cases announced added attractions for the day, many of the features being along patriotic lines. It is expected that these will be well patronized as a time when this patriotic sense is at its highest due to the Mexican excitement and the fact that Tulsa's company of national guardsmen is now awaiting orders to campaign for the border.

Many of the hotels of the city have announced plans for catering to the special Fourth of July guests, both residents of Tulsa and the thousands from nearby cities who are expected to take this occasion of visiting the metropolis of the state.

Many Home Picnics

More than a hundred neighborhood picnics are planned and the many beautiful parks of the city will be dotted in the evening with the linen spread with picnic lunches and baskets filled with good things to eat.

The city offices will be closed throughout the entire day, with the exception of that of Mayor J. H. Simmons, who yesterday announced he would remain with the ship until the time for the feature attractions at seven park, which he will close his chambers doors and his himself to the place selected for the fire drill and municipal fireworks display.

As another attraction offered to those who are loath to leave the town at dusk and short today the management of the Tulsa baseball club has arranged for a double-header of baseball to be played at Association park, where the local club will meet in two engagements with the McAlester Miners.

While the heads of the several departments of the city's management do not intimate whether they will close down the rolltops and take part in the celebrations at the various parks, they do take the precaution to keep the following details along with the mayor's proclamation, and these are to stand as suggestions of ways in which not to celebrate the Fourth.

Don'ts by Mayor Simmons

Don't forget that this is a national holiday.

Don't deny your employees the chance to celebrate.

Don't miss the municipal display of fireworks at the park.

Don't miss the opportunity to take your friend in your new car.

Don't let business matters keep you away from your family on this day—you can go to work tomorrow.

Don'ts by Chief Alder

Don't throw a firecracker into a box to explode.

Don't shoot a roman candle toward a window opening.

Don't drop a piece of punk into a pile of dry leaves or grass.

Don't play with firecrackers or torpedoes in a garage or stable.

Don't imagine that the firemen like to answer alarms when they could be avoided by a little common sense.

Don'ts by Chief of Police Lucas

Don't shoot fireworks into other people's yards.

Don't throw torpedoes under horses' feet or at other animals.

Don't throw firecrackers or torpedoes from automobiles or wagons.

Don't give the children revolvers loaded with blanks, they may use bullets.

Don't get in a dispute with neighbors over the notes of the day; that's what firecrackers were made for.

SPEED DEMON CLAIMS VICTIM

Morrell Munn Fatally Injured and R. E. Seip Hurt When Car Wrecks.

Special to The World.

OKLAHOMA CITY, July 3.—Morrell Munn, 25 years old, city salesman for an automobile company, was fatally injured and R. E. Seip, also an auto salesman, severely cut and bruised when a big racing car which they were driving inside the city limits this afternoon shed a tire and turned turtle.

Munn was thrown 25 feet to the other side of the street where his head crashed against the curb. His skull was fractured and no hope is entertained for his recovery. Seip also was thrown a considerable distance, but alighted on a pile of brush.

The men were trying out the car and were traveling at a high rate of speed when the accident occurred, according to bystanders. The men are

POSTOFFICE SHOWS ANOTHER BIG GAIN

Thirty-Nine Per Cent Increase in Quarterly Receipts Over 1915.

At the close of the second quarter of 1916, Tulsa postoffice receipts show an increase of 39 per cent over the same period last year, according to the report made yesterday by Ralph R. Johnson, assistant postmaster. The month of June was 34 per cent greater than June, 1915.

Total receipts for June were \$15,610 and for the quarter, including the months of April, May and June, were \$48,681.94. In June, 1915, the receipts were \$11,575 and for the second quarter of 1915 they were \$35,364.96.

The increase of June over May is not great on account of the fact that the last month in the quarter is as a rule lighter than the first two. Expenses for the month were \$7,099, of which about \$6,000 is for salaries.

The chief need for improvement at the present time is in the parcel post department. Hereofore the office has cleared only \$36 per quarter for the parcel post handling, but the budget has been increased to \$250 per quarter. The increased allowance will allow the man to put his full time on the department.

Charters Issued.

OKLAHOMA CITY, July 3.—Secretary of State J. L. Lyon has issued the following charters: Mowhoma Oil & Gas Co., Tulsa; capital \$30,000; incorporators, G. C. Borenstein, W. K. Brown, Kansas City, Mo.; C. R. Stanton, Sapulpa.

Wirt Electric Light & Power Co., Wirt; capital \$1,000; incorporators, R. J. Gray, Mayme Gray, Mike Mikels, Wirt.

Dawson Produce company, Oklahoma City; capital \$250,000; incorporators, K. W. Dawson, S. L. Maxwell, J. A. McElhinney, Oklahoma City.

George W. & J. E. Piersol Co., Oklahoma City; capital \$2,000; incorporators, George W. Piersol, J. E. Piersol, Oklahoma City; J. J. Mitchell, Arcadia.

Ardmore Hotel company, Ardmore; capital \$200,000; incorporators, S. A. Apple, Charles Von Weise, T. C. Bridgman, Ardmore.

Abandon Search.

CHEBOYGAN, Mich., July 3.—Search has been abandoned for James G. Hurley and Charles Marcell, missing New York bankers who started out on a ten thousand-mile canoe trip. George A. Hurley, banker of New York, left here today after searching the vicinity near Albany Island, Black Lake, where the men spent the winter. He offered a reward for the bodies. The last seen of Hurley and Marcell was when they left Cheboygan June 4 for the Elk's state convention at the Soo.

STATE TO PRINT TEXTBOOKS

Newly Adopted Kansas Plan Will Save Money for Taxpayers.

The state publication of school textbooks has been undertaken by Kansas. The legislature of that state has appropriated \$250,000 to establish a textbook plant. This is to be the extent of the taxpayers' investment. Books will be distributed at a profit sufficient to cover depreciation, replacement and an interest of 4 per cent on the investment.

The cost of the publication of the state school books is not expected to be much less than that of publishing

houses. But Kansas intends to save its citizens from paying the big profits made by the book concerns. It does not have to create its market. Education is compulsory, the school-book market is created by law and thus there are not advertising expenses, no traveling men, no resident agents in large cities, no lobbies at the state capital. Dealers are allowed 15 per cent profit and the dealers pay the freight charges.

For many years Kansas had done other kinds of state printing by the contract system, under which the state printer often made from \$20,000 to \$30,000 annually. To do away with this abuse Kansas finally un-

der took to do its own printing, with so much success in reducing the cost that the present experiment in the publication of schoolbooks followed as a matter of course.

The Kansas enterprise deserves the attention of all citizens. Compulsory education should mean the best education at the lowest possible price. It should not mean that taxpayers may be forced by law to submit to exploitation by schoolbook combines.

By taking over the publication of textbooks the state also eliminates the political activity of private publishers, and thus "takes the schools out of politics"—Cleveland Press.
